

Measure the inside diameter of the ring by taking your ruler and measuring across the ring. Take the millimeter measurement and see what ring size it matches to.

Diameter

| size | mm | inches |
|------|-------|--------|
| 3 | 14.07 | .554 |
| 3.5 | 14.48 | .570 |
| 4 | 14.88 | .586 |
| 4.5 | 15.29 | .602 |
| 5 | 15.70 | .618 |
| 5.5 | 16.10 | .634 |
| 6 | 16.51 | .650 |
| 6.5 | 16.92 | .666 |
| 7 | 17.32 | .682 |
| 7.5 | 17.73 | .698 |
| 8 | 18.14 | .714 |
| 8.5 | 18.54 | .730 |
| 9 | 18.95 | .746 |
| 9.5 | 19.35 | .762 |
| 10 | 19.76 | .778 |
| 10.5 | 20.17 | .794 |
| 11 | 20.57 | .810 |
| 11.5 | 20.98 | .826 |
| 12 | 21.39 | .842 |
| 12.5 | 21.79 | .858 |
| 13 | 22.20 | .874 |
| 13.5 | 22.61 | .890 |
| 14 | 23.01 | .906 |
| 14.5 | 23.42 | .922 |

How to Measure a Ring You Already Own

There are two easy ways you can measure a ring you already own. Measure the inside diameter of the ring by taking your ruler and measuring across the ring. Take the millimeter measurement and see what ring size it matches to.

If you have a ring that fits perfectly already then finding the size is easy! Simply take the ring and place it over the circles on the chart. Once you find the circle that matches your ring then you will have the size.
